Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 38-40,42,55-57,62,66,68,79-83,88-93,95,96,98-100,102,104,112,114,118-131,133-135,138 and 139.

Election/Restrictions

Claims 38-40, 42, 55-57, 62, 66, 68, 79-83, 88-93, 95, 96, 98-100, 102, 104, 112, 114, 118-131, 133-135, 138 and 139 are generic to a plurality of disclosed patentably distinct species. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

The claims are drawn to structurally dissimilar compounds which are made and used independently. They are patentably distinct.

The search required for the entire scope of compounds claimed is too burdensome.

Note that compounds, corresponding compositions, a method of use and a process of making that are of the same scope are considered to form a single invention. The instant claims are not so linked as to form a single invention. The compounds are so diverse in scope that a prior art anticipating one compound under 35 USC 102 would not render obvious another compound of the same claim under 35 USC 103.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

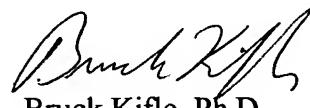

Art Unit: 1624

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
